REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art searched and found, including those cited in the accompanying Notice of References Cited (PTO-892), have not taught the combination of limitations found in the independent claims. The amended claims essentially state, taking the language in claim 1 as exemplary, the first processor executes a main routine and a called subroutine and generates an interrupt to the second processor, which does nothing more than save the return address for the interrupt. This limitation, when taken in combination with the other limitations in the claims, was not found in the prior art searched and found. The prior art searched and found taught that the second processor, or co-processor, either executed the subroutine or performed other instructions related to the main routine or subroutine, not just the saving of the return address of the called routine or the saving of the return address was performed by a unit within the first, or main, processor.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to AIMEE J. LI whose telephone number is (571)272-4169. The examiner can normally be reached on M-T 7:00am-4:30pm.
